SED Determination
<h3 style="margin: 0;">Identifying Children / Adolescents with Serious Emotional Disturbances¹</h3>
<p><i>Serious Emotional Disturbance (SED) is a term that encompasses one or more mental illnesses or conditions. Whether a member has a SED can be determined by applying either the Part I or Part II below; or both. Identifying a child as having SED is one step in the determination of medical necessity for Intensive Care Coordination. In addition, MassHealth will be tracking SED determinations to guide service system improvements for children and families. Accurate identification of children with SED will assist MassHealth improve services for this population in the future.</i></p>
<p>A child may have a SED under either the Part I or Part II or both¹. All criteria in Part 1 and Part 2 must be considered and ruled in or out.</p>
<p><i>Part I:</i></p> <p>Please answer the following questions according to your current knowledge of the child or adolescent:</p>
<p>1. Does the child currently have, or at any time in the last 12 months has had, a diagnosable DSM-IV or ICD-10 disorder(s)? Developmental disorders, substance abuse disorders or V-codes are not included unless they co-occur with another DSM-IV or ICD-10 diagnosis.</p> <p>Yes</p>
<p>2. If yes to question 1, please indicate whether those diagnoses resulted in functional impairment which substantially interferes with, or limits, the child's role or functioning in any of the following areas. (Functional impairment is defined as difficulties which substantially interfere with or limit his or her ability to achieve or maintain one or more developmentally appropriate social, behavioral, cognitive, communicative, or adaptive skills. Functional impairments of episodic, recurrent, and continuous duration are included unless they are temporary and expected responses to stressful events in the environment).</p> <p>Family School</p>
<p><i>Part II:</i></p> <p>4. Please indicate if the child has exhibited any of the following over a long period of time, and to a marked degree that adversely affects the child's educational performance:</p>

(a) An inability to learn, that cannot be explained due to intellectual, sensory, or health factors.

No

(b) An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.

No

(c) Inappropriate types of behavior or feelings under normal circumstances.

Yes

If yes to (c), is this solely the result of autism, mental retardation, specific learning disability, hearing impairment, visual impairment, deaf-blindness, speech or language impairment, orthopedic impairment, traumatic brain injury, other health impairment, or multiple disabilities not including a serious emotional disturbance?

No

(d) A general pervasive mood of unhappiness or depression.

Yes

If yes to (d), is this solely the result of autism, mental retardation, specific learning disability, hearing impairment, visual impairment, deaf-blindness, speech or language impairment, orthopedic impairment, traumatic brain injury, other health impairment, or multiple disabilities not including a serious emotional disturbance?

No

(e) A tendency to develop physical symptoms or fears associated with personal or school problems.

Yes

If yes to (e), is this solely the result of autism, mental retardation, specific learning disability, hearing impairment, visual impairment, deaf-blindness, speech or language impairment, orthopedic impairment, traumatic brain injury, other health impairment, or multiple disabilities not including a serious emotional disturbance?

No

5. The child / adolescent has SED under Part I - Yes

6. The child / adolescent has SED under Part II - Yes

¹ The determination that a child meets these clinical criteria is not an evaluation under federal and state laws addressing special education.
